Hello, I'm Chris from Gold River Marketing in North London. I came across **S&C Hair & Lashes** on Google: great reviews, but no website linked to your profile, so customers can't click through to you.

Rather than send a proposal, I built your website: your name, your services, a tap-to-call button. Once it's active, we add it to your Google profile and update it with **your actual images and logo**.

It's **an exclusive website for your business**, so you don't have to rely on third-party platforms that show you alongside all your competitors.

Drum roll, please...

Scan the code on the front and unveil your website! An opportunity is coming your way: imagine more customers finding you directly. Your preview is up for 30 days only.

Love it? Call or text me and I'll customise it: your colours, photographs, logo and wording.
